

**Restrictions and
Limits transport
of mobiles
phones, laptops
and tablets
equipped with
lithium ion
battery less than
100 Wh**

National: Restrictions and Limits: Battery lithium ion with a power rating less than 100 Wh installed in mobile phone

1 mobile phone

packed with cushioning and reinforcing material

Required labels / marks

Not applicable

Documentation

- None

Packaging

- Strong rigid outer packaging

Limit weight per package

none

General restrictions

- Acceptable to most locations
- Batteries/cells known to be damaged or defective are prohibited from transport
- Waste batteries and batteries being shipped for recycling/disposal are prohibited from transport

FedEx Express restrictions

- [FX-05 b] All lithium batteries (Section I/IA/IB and Section II) in all packing instructions must not be shipped in the same package or overpack with the following Hazard Classes/Divisions: 1.4, 2.1, 3, 4.1, 4.2, 4.3, 5.1, 5.2, 8, or 2.2 with a Cargo Aircraft Only (CAO) label. **Exception:** If the only lithium batteries are Section II and are those in packages that are excepted from having the Lithium Battery Mark, then do not select UN 3481 PI 967 in the FedEx automation system (so ELB does not appear on the automation label) for devices such as temperature control devices.
- [FX-04 c] Shippers sending any data loggers or data monitors (other than FedEx SenseAware®) require pre-approval. Contact your Worldwide Account Manager (WAM) to initiate the process. If you do not have a WAM, you may contact your sales or account manager. Devices are approved by manufacturer and model number, and a shipper may request the approval. You may contact your WAM, Sales, or Account Manager to determine if your device is approved.
- [FX-04 f] Hoverboards or similar self-balancing vehicles (UN 3171) will only be accepted from companies if new, in unopened original packaging. Used, refurbished self-balancing vehicles shipments from individuals, resellers or third parties will not be accepted.
- [FX-05 a] All batteries transported under IATA Special Provision A88 and A99 must be pre-approved. Customers can email A88A99approvalrequest@fedex.com to begin the process.
- No Dangerous Goods surcharge
